

✓ **Correct** 5/5 Points

3. Which one of the following options can be considered as the Cloud?

*

☒ Hadoop ✓

Feedback:

Whenever any intranet becomes large enough in size that a diagram is not able to differentiate the individual physical system, so at that stage intranet also becomes known as a cloud. Hadoop can be considered as a cloud.

☐ Intranet

☐ Web Applications

✓ **Correct** 5/5 Points

4. Which feature is now known as cloud computing?

*

☐ Web Service

4. Which feature is now known as cloud computing?

*

☐ Web Service

☐ Softwares

☒ Internet ✓

✗ **Incorrect** 0/5 Points

5. What is Cloud Computing?

*

☒ Cloud Computing means providing services like storage, servers, database, networking, etc ✓

☐ Cloud Computing means storing data in a database

☐ Cloud Computing is a tool used to create an application

6. In the Realm of Cloud Computing, EC2 is Renowned as _____ *

☐ Cloud storage

☒ PaaS

☐ SoA

Virtual machine ✓

✗ **Incorrect** 0/5 Points

7. Cloud Computing is Beneficial for Green Computing Because *

It enables multiple users to share processing power, eliminating the requirement for individual software and hardware ✓

It permits users to work with more hardware

☐ It allows users to work with more software

8. Which of the following is **not** a key characteristic of cloud computing? *

☐ On-demand self-service

☐ Resource pooling

☒ Limited scalability ✓

☐ Broad network access

✓ **Correct** 5/5 Points

9. **Kubernetes is:** *

☐ A type of cloud that enables users to build software

☐ A visualization technology that enables multiple virtual machines to run on one single machine

☒ A container orchestration platform

10. Which option Offers Virtual Machines (VMs) in the Cloud *

- ☐ PaaS
- ☒ IaaS ✓
- ☐ SaaS

✓ **Correct** 5/5 Points

11. Which is not a type of cloud server?

*

- ☐ Public Cloud Servers
- ☐ Private Cloud Servers
- ☐ Dedicated Cloud Servers
- ☒ Merged Cloud Servers ✓

Feedback:

12. A Load Balancer is Defined as: *

- ☒ A device that distributes network traffic over various servers to ensure that not even a single server becomes overloaded ✓
- ☐ A device that offers network connectivity
- ☐ A device that enables users to detect and prevent security threats

✓ **Correct** 5/5 Points

13. Which of the following is a type of cloud computing service? *

- ☐ Service-as-a-Software (SaaS)
- ☐ Software-and-a-Server (SaaS)
- ☒ Software-as-a-Service (SaaS)
- ☐ Software-as-a-Server (SaaS)

14. which one is the most restrictive and refined service model?

★

☒ SaaS

☐ IaaS

CaaS

PaaS ✓

✓ **Correct** 5/5 Points

15. When an organization moves expenses onto the ____ side of their budget, it allows them to transfer the overall risk to the provider of their cloud computing services.

★

Pex

Dex

15. When an organization moves expenses onto the ____ side of their budget, it allows them to transfer the overall risk to the provider of their cloud computing services.

*

☐ Pex

☐ Dex

☒ OpEx ✓

Feedback:

Operational expenditure (OpEx) in cloud computing is the ongoing cost of running a business's day-to-day operations, including using cloud services. OpEx expenses can include:

✗ **Incorrect** 0/5 Points

16. The Amazon Machine Images are basically virtual appliances that are packaged for running on the _____ nodes grid.

*

Ken

Ben

16. The Amazon Machine Images are basically virtual appliances that are packaged for running on the _____ nodes grid.

★

☐ Ken

☒ Ben

☐ Zen

☐ Xen ✓

✓ **Correct** 5/5 Points

17. which is a potent technology for cloud-building.

a) ★

☐ HyperCube

☐ vCube

17. which is a potent technology for cloud-building.

a) *

☐ HyperCube

☐ vCube

☒ vSphere ✓

Feedback:

VMware vSphere is a cloud computing virtualization platform that helps enterprises manage and deploy virtual environments

✓ **Correct** 5/5 Points

18. "Deep Web" does not provide which of the following?

*

☒ Pages without links ✓

☒ Limited or Private Access Web pages ✓

☒ Database Generated Web pages ✓

19. What do you use for load testing and Web performance management?

*

- ☒ Web metrics ✓
- ☐ VMware Hyperic
- ☐ TapIn Systems
- ☐ Univa UD

✓ **Correct** 5/5 Points

20. What data does CloudFront support via static data transfers and content streaming from any CloudFront location to another?

*

- ☒ geocaching ✓

Feedback:

Geocaching is an outdoor recreational activity, in which participants use a Global Positioning System receiver or mobile device and other navigational techniques to hide and seek containers, called geocaches or caches

21. The ____ initiative tries providing a way in which the cloud computing services can be measured along dimensions such as cost?

*

☐ OCCI

☒ SMI ✓

Feedback:

SMI Storage Management Initiative can help you find the right network and cloud strategy--from the right providers, for your specific needs.

☐ CCE

✓ **Correct** 5/5 Points

22. From the Following AWS Services, Which can be Used to Scale EC2 Instances Automatically With Respect to Demand? *

Amazon Route S3

AWS Elastic Beanstalk

✓ **Correct** 5/5 Points

22. From the Following AWS Services, Which can be Used to Scale EC2 Instances Automatically With Respect to Demand? *

Amazon Route S3

AWS Elastic Beanstalk

AWS Lambda

Amazon EC2 Auto Scaling ✓
